

MAINS LED FLOODLIGHTS

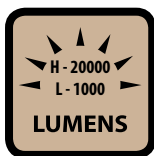

Our LED flood light range make great replacements for halogen and metal halide flood lights and can be used for a fraction of the cost.

They are suitable for all weather conditions and can be used to light small and large areas.

With a 50,000 hour lifetime LED and very low power consumption these flood lights will dramatically reduce your electric bill.

ECOSTAR & ECOSTAR WITH PIR

- 1000–20,000 Lumens
- High powered Epistar LED
- Robust aluminium casing
- Adjustable bracket
- Can operate on power sources between 110V - 240V
- Low heat emission = no cool down required before storage
- Compact design - smaller than fluorescent heads
- IP65 Rating

ECOSTAR

Manufactured in robust aluminium casing, these are IP65 rated (water and dust resistant) and covered by a 2 year warranty.

Fitted with a universal ballast, they can operate from a 110v-240v power source. Using LED means no replacement bulbs are required, and they offer a 500% increase in output per watt when compared to incandescent lights.

OPTIONAL EXTRAS

3.5m tripod | 1.7m tripod | 1m tripod | 13m extension lead | T Bar (required for 2 head option)

HIGH POWER, LOW ENERGY LED FLOODLIGHT RANGE

110V LINKABLE OPTION

The **ECOSTAR110V** linkable is the lighting solution for the industrial and construction market and outdoor events. Fitted with CEE 110V plug and socket allowing multiple lights to be linked together available in 30w, 50w and 100w. Linkable versions enable convenient 'daisy chaining' and the LED energy efficiency allows very long cable runs. NightSearcher **ECOSTARS** are powered by LEDs so offer double the illumination for the same energy consumption and are the most efficient units available anywhere providing excellent performance and a notably shadow-free illumination.

The linkable is also available with double headed bracket and 1.7m or 3.5m extendable tripod.

Optional
Tripod

The linkable is also available with a single head bracket and 1.7m or 3.5m tripod
