

FEATURES

- Excellent grease removal - removes grease, dirt and most fluxes
- Leaves a dry clean surface without any residue
- Extremely fast evaporation rate
- Ozone friendly
- Harmless to most plastics, rubbers, elastomers and surface coatings

RS PRO 2.5 L Can Precision Cleaner & Degreaser for Contacts, PCBs

RS Stock No.: 448-196

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO very fast drying solvent specially formulated for quick and efficient cleaning of electronic equipment. This cleaning agent is ideal for use on electrical contacts, PCBs, components in electronic and video equipment, computers, optical and precision instruments. Most electronics cannot be washed with water, so it's important to clean and coat your electronics correctly to remove dirt and prevent damage in storage and in use.

Options include:

[448-196](#) - Electronic Solvent Cleaner Plus 2.5L tin

[136-8538](#) - Electronic Solvent Cleaner plus 400ml aerosol

General Specifications

Package Size	2.5L
Package Type	Can
Product Category	Fast Drying
Applications	cleaning and removing grease, oil, dust or flux from delicate electronic assemblies

Mechanical Specifications

Density At 20°C	0.79g/ml
Residue On Evaporation (ppm)	<50
Evaporation Rate	1.5
Flammability	Flammable
Inhalation Toxicity	500ppm

Operation Environment Specifications

Flash Point	-48°C
--------------------	-------

Approvals

Compliance/Certifications	RoHS Certificate Of Compliance
----------------------------------	--------------------------------
