

NMS - Neodymium bit magnetizer / demagnetizer

Moving magnets retain firmly the recessed bit or the thin shank screwdriver.

- Can be used with the bit or the screwdriver up to ϕ 4mm
- Magnetize strongly the bit or the screwdriver
- Long coarse thread is also retained with the strong magnets
- Can magnetize and demagnetize
- Magnetic force remains even after the product is taken off from the bit
- Demagnetize the bit or screwdriver for prevention of adhesion of cutting chips
- Exist in Red, Yellow, Green, Blue
