Specification

Furnish and install a Grässlin FM2D50 _____ 24-Hour/7-Day electronic time switch. This 2-channel control shall have 24-Hour/7-Day programming and also offer 25 ON and 25 OFF setpoint programs and include 2 preset block programs that allow selection of any combination of days for different weekday schedules. Each channel shall be independently programmable. The LCD shall display time of day in AM/PM or 24-Hour (military time) format and provide load status indication. Auto Daylight Saving Time adjustment provided. The time switch will be programmable to the minute and also offer a manual override for ON or OFF to the next scheduled event. The SPDT relay output will be rated for 16A resistive @ 277 VAC. Reserve carryover of 3 years (non-replaceable, non-rechargeable battery). The time switch shall be surface or flush mountable with a DIN Rail mounting base optional.
