

Designed to fit directly onto the EDM-300C wall mounted fan for narrow panel wall applications.

Fan and grille combination designed to be installed into narrow panel wall applications from 45 to 130mm wide.

SLIMFIT

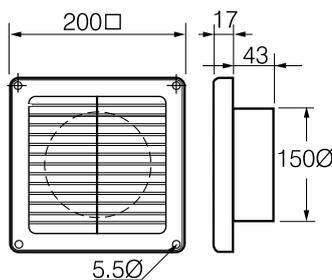

EXTERNAL GRILLE

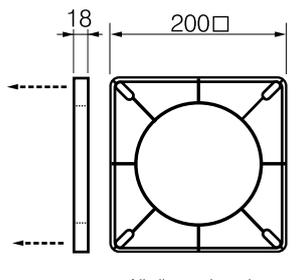

The Slimfit Grille and Spacer Plate have been specifically designed to fit directly onto the spigot of an EDM-300C fan.

- Spacer Plate can be mounted on exterior or interior wall.
- Made from UV-stabilised ABS Plastic.
- Comes with flywire mesh sheet to eliminate entry of insects.
- Can also be used in thicker walls or ducted applications using wall tube or flex duct.
- Available with 150mm spigot only.

Slimfit Louvre Grille
(Model No: DPL150)

Spacer Plate
(Model No: DPS150)

All dimensions in mm

INSTALLATION DATA

Can be installed into narrow panel wall applications from 45 to 130mm thick such as mining accommodation huts, portable homes and site offices.
