

FL60R

RECHARGEABLE WIDE ANGLE FLOOD BEAM

450 LUMENS | 33M BEAM | 18H

The FL60R Headlamp is the first rechargeable Wide Angle Flood Beam LED headlamp. The light features our Flex Charge Dual Power system. The Flex Charge feature allows for the rechargeable battery pack to be recharged inside or outside of the headlamp using a micro USB. The Dual Power enables it to run on our custom rechargeable battery pack or standard alkaline batteries. The Wide Angle Flood Beam is perfect for illuminating large areas with its ultra-wide circular beam. A conveniently located button on the front of the headlamp allows the user to swiftly change between high, medium, and low light outputs. The headlamp comes with an IPX4 weatherproof rating and reflective safety strap, making it perfect for any rugged environment you may find yourself.

With Coast's commitment to quality, the FL60 Headlamp is impact resistant, weather resistant and its LED is virtually unbreakable. The FL60 Headlamp is backed by Coast's lifetime warranty against defects in materials and workmanship. Tested and rated to ANSI/FL1 standards.

DUAL POWER

Options to stay ready. With COAST Dual Power technology, you have the choice to power your light with USB-rechargeable batteries or with standard alkaline batteries.

FLEX CHARGE

Power up on your terms. Lights with COAST Flex Charge technology feature a rechargeable battery that can be recharged either inside or outside the light. A simple USB connection to either AC or DC ensures you can always get juice.

HARDHAT COMPATIBLE

Rugged enough for the outside of the hardhat. COAST headlamps with Hardhat Compatible design include clips for attaching the light to the hat.

HIGHMEDIUMLOW

Control your light power with the push of a button. Cycle between full light, medium light and low light options.

HINGED BEAM

Up, down, or straight ahead. All COAST headlamps feature a hinged, tilting head so that you can adjust the light's direction and see right where you're looking.

REFLECTIVE STRAP

Stay visible in the dark. Some COAST headlamps feature a Reflective Strap to increase safety and ensure user visibility in low light.

WATER RESISTANCE

Don't worry about the weather. COAST lights that have passed the IPX4-level water resistance test are splash-resistant and built with durable materials that stand up to nature.

WIDE ANGLE FLOOD BEAM OPTIC

See the whole scene at once. The Wide Angle Flood Beam illuminates the broadest possible area with vivid, consistent light from edge to edge. At 6 feet / 1.8 meters distance, the beam shines a clear circle up to 11.5 feet / 3.5 meters in diameter.
