

## FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **14 mm Length:** Suitable for a wide range of applications, offering versatility.
- **14.04 mm Outside Diameter:** Ensures a precise fit for optimal functionality.
- **8.98 mm Shaft Diameter:** Compatible with standard shaft sizes, allowing for easy integration.

## RS PRO 14 mm Sintered Bronze Plain Bearing

RS Stock No: 528-273

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. Its primary benefit is the reduction of friction between moving parts, enhancing the lifespan of machinery.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	8.98 mm

## Mechanical Specifications

Length	14 mm
Material	Sintered Bronze
Outside Diameter	14.04 mm
