

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long service life.
- **4 mm Length:** Compact design suitable for tight spaces and easy integration.
- **9.03 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **4.99 mm Shaft Diameter:** Designed for precise fit and smooth operation.
- **Plain Bearing Design:** Offers low friction and efficient performance in rotational applications.

RS PRO 4 mm Sintered Bronze Plain Bearing

RS Stock No: 528-938

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from high-quality sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in demanding environments. Its compact size allows for easy integration into existing systems, providing reliable performance and reduced maintenance needs.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	4.99 mm

Mechanical Specifications

Length	4 mm
Material	Sintered Bronze
Outside Diameter	9.03 mm
