LINDOR CREW SOCK *industry, transport, handling*

HARD-WEARING, COMFORTABLE SOCK ★★★★★

- compatible with frequent bending
- moisture-wicking, breathable model
- anti-bacterial treatment
- available in three colours

fine rib for a perfect fit

ribbed fabric providing support without compression

comfortable knit terry section (toes and heel), cushioned heel

mesh section for maximum breathability

elastic arch support

breathable fabric providing ventilation for the foot

two massaging bands providing a comfortable sensation

Freshness and lightness at your feet

- Anti-bacterial and anti-fungal properties thanks to Silver Protection® silver ion treatment.
- Effective, lasting foot hygiene protection, limitation of unpleasant odours

Breathability for the feet

- Perspiration wicked to the outer layer of the fabric thanks to the use of water-repellent polypropylene fibres
- Quick drying, good thermal insulation.
- Breathable section around the instep, ventilated fabric underneath the foot. Permanent air replacement.

Support and comfort

- Natural cotton fibres (80%) make for a flexible material that is pleasant to wear.
- The use of elastane guarantees the elasticity of the sock.
- Perfect fit enhanced by ribbed fabric on the leg and a non-slip elastic band on the top of the foot.

COMPOSITION

80% cotton
18% polypropylene
2% elastane
