Technical sheet

WALLIXEXT

Double sleeve (left/right) for WALLIX extension – 265 × 150 × 225 mm

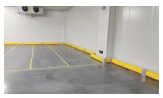

High-performance floor protection barriers made from polyurethane and aluminium components, designed to secure traffic areas, protect infrastructure, and separate pedestrian and vehicle flows. Flexible and unbreakable, the system absorbs impacts without breaking and immediately returns to its original shape. Its modular design allows the creation of straight or corner protection systems according to requirements. All references are supplied with original fixings to ensure compliant installation. Professional installation is mandatory.

Customs code	7326909000
EAN	3321360118356

Color : Grey

Material : Aluminium casting

Specifications :

- Intermediate element made of cast aluminium for the WALLIX protection system .
- Flexible and unbreakable .
- Progressive impact absorption .
- Returns to its original shape after impact .
- Modular protection element .
- Compatible with WALLIX modules .
- Fixings included .
- Virtually maintenance-free.
