

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, ideal for high-load applications.
- **6 mm Length:** Compact design suitable for tight spaces without compromising performance.
- **14.04 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **8.98 mm Shaft Diameter:** Provides a precise fit for optimal performance and reduced vibration.

RS PRO Sintered Bronze Plain Bearing, 6 mm Length

RS Stock No: 528-271

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for efficient and reliable operation in various industrial applications. With its robust construction, it ensures smooth rotational movement and reduces friction between moving parts, enhancing the lifespan of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	8.98 mm

Mechanical Specifications

Length	6 mm
Material	Sintered Bronze
Outside Diameter	14.04 mm
