

Professional Workflow HR1
(USB 3.0 Hub)

THUNDERBOLT.
Professional Workflow HR2
(Thunderbolt™ 2 and
USB 3.0 Hub)

Assorted card readers

Product Line Highlights:

- Transfers images and video from multiple memory cards at once
- Hubs leverage Thunderbolt™ 2 or USB 3.0 technologies for high-speed transfer of RAW images, high-res photos, and HD, 3D, and 4K video
- Readers support today's latest card formats—SDHC™/SDXC™ UHS I and UHS-II, CompactFlash® UDMA 7, XQD™ 2.0, CFast™ and CFast 2.0 (Thunderbolt or USB 3.0), and microSDHC™/microSDXC™ UHS-I and UHS-II
- Innovative, modular design
- Use the card readers with a hub or on the go
- Two-year limited warranty on hub and readers

Take control of your workflow

The Lexar® Professional Workflow line of products includes your choice of two four-bay reader hubs, along with a selection of card readers. Its innovative, modular design lets you create a custom setup, while its high-speed performance lets you offload your work, faster. Pick and choose the right combination for your needs, and take control of your workflow.

Transfer images and video from multiple memory cards at once. Mix and match any of the Professional Workflow readers with your choice of hub to create your ideal setup. Whether you choose four of the same format or mix and match your card readers, the solution lets you transfer your images in a single click.

Customize your workflow with an innovative, modular design. Whether you're a pro photographer or videographer or an adventure seeker using a sports camcorder or aerial camera, it's easy to create your custom workflow setup. The Professional Workflow line includes your choice of a USB 3.0 or Thunderbolt™ 2/USB 3.0 four-bay reader hub and six card readers, supporting SDHC™/SDXC™ UHS-I and UHS-II, CompactFlash® UDMA 7, XQD 2.0, CFast™ and CFast 2.0 (USB 3.0 or Thunderbolt), and microSDHC™/microSDXC™ UHS-I and UHS-II formats. And for added versatility, you can remove the readers from the hub for individual use on the go.

Offload your work, faster. The readers and hubs leverage USB 3.0 technology for high-speed performance, while the Professional Workflow HR2 hub is also designed to deliver next-generation Thunderbolt™ 2 speeds. Thunderbolt 2 technology gives photographers and videographers the power to quickly transfer 4K video and other large media files, at up to twice the speed of Thunderbolt and up to 4x the speed of USB 3.0 devices.* Also, the hub is fully backwards compatible with Thunderbolt and USB 2.0 (at slower speeds), while using the same cables and connectors. This high-performance option lets you offload your work, faster.

Simple setup and use. Simply plug the readers of your choice into a hub and start transferring files. It's that easy. Also, the Professional Workflow HR2 hub provides two Thunderbolt™ 2 ports and one USB 3.0 port, making it easy to daisy-chain with your existing setup. Having two Thunderbolt 2 ports also allows you to place the hub anywhere in your lineup of other Thunderbolt devices to create a unique, customizable setup. The hubs help you eliminate cable clutter and take control of your workflow.

Products (sold separately):

Hubs:

Lexar® Professional Workflow HR1
(four-bay USB 3.0 reader hub)

Lexar® Professional Workflow HR2
(four-bay Thunderbolt™ 2/USB 3.0

Future-proof your workflow setup. The modular design of the Professional Workflow line of products makes it adaptable to changing technology. As Lexar introduces new card reader formats for this system, you'll be able to swap in new products to meet your growing and changing needs.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

When memory matters, the choice is Lexar. With a long history in the industry, we know memory. We move quickly with technology to design the solutions you need, and work with device manufacturers to make sure our products are compatible. Then we stand behind them with outstanding warranties and helpful customer service. We're dedicated to performance, reliability, and expert support, so when it comes to storing the memories that matter, trust Lexar.

For more than 15 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, card readers, and storage drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

Lexar. When Memory Matters.®
