

## SMC08-51AR

### Adjustable Semi-Con Scoring Tool

General purpose semi-con scoring tool for most medium voltage cable constructions & equipped with a standard cable guide.

### Features

- Compact & user-friendly tool scores semi-con on all medium voltage 5 to 35 kV cables without damaging the insulation
- Eliminates the need for traditional stripping knives, reducing the risk of cuts or lacerations
- Performs longitudinal, spiral & calibrated square cuts on cable diameters ranging from 8 to 51 mm
- Precise & easily adjustable blade depths from 0 to 4 mm in increments of 0.05 mm
- Adjustable blade pitch accommodates various cable diameters
- Operates within a 51 mm envelope on larger cables
- Weight: 260 g      Dimensions: 83,4 X 55,9 X 126,5 mm.

| CABLE VOLTAGE | CABLE DIAMETER | SCALE INCREMENTS | ADJUSTABLE BLADE DEPTH | REPLACEMENT BLADE PART |
|---------------|----------------|------------------|------------------------|------------------------|
| 5 kV to 35 kV | 8 to 51 mm     | 0.05 mm          | Up to 4 mm             | SMC08-51ARB            |

Ref. for tool with plastic case: **SMC08-51ARKC**

Blade depth is easily adjustable & set by turning the dial.

Four blade pitch settings adjust the spiral width for various cable sizes.

Score semi-con in a spiral pattern for a continuous chip..

Simply pull the tool along the full cable length to perform longitudinal cuts.
