Lathe Chuck Guard for Bench Grinding Machine

RS Stock number [774-818](#)

Description:

Suitable for use on most bench grinding machines, up to 8 inches (200mm) wheel diameters.

Manufactured from a cast aluminium frame measuring 160mm x 150mm.

4mm thick polycarbonate screen.

Can simply be bolted to the casing of most popular machines, and have a locking pivot connection allowing the guards to be positioned at any desired angle.

Specifications:

Width:	160 mm
Length:	150 mm
Frame Colour:	Yellow
Frame Material:	Aluminium
