

Part Change Notification

This document is to inform internal and external stakeholders about a change in the below listed parts.

In case of questions regarding those parts please do not hesitate to contact:

info@rnd-electronics.com

Parts affected

RND Mfr Part Number	RND PRODUCT DESCRIPTION
<i>RND 210-00010</i>	<i>LED Indicator Orange 8mm 5VDC</i>
<i>RND 210-00011</i>	<i>LED Indicator Green 8mm 5VDC</i>
<i>RND 210-00012</i>	<i>LED Indicator Red 8mm 5VDC</i>
<i>RND 210-00013</i>	<i>LED Indicator, Red, 8mm, 5V</i>
<i>RND 210-00014</i>	<i>LED Indicator, Orange, 8mm, 5V</i>

Scope of Change

- Change of Supplier
- Change of Product Attribute(s)
- Change of Packaging (quality)
- Change of Pack Quantity (UoM)
- Change of CoO
- Other (describe detailed below)

Qualitative Description of Change / Differences

The industry standard for LEDs is for the Cathode (-) to be the short pin. Previously, RND would cut the Anode (+) leg to be shorter than the Cathode. Going forward, the LED pins will be left as standard with the Cathode as the shorter pin.

Potential Customer Impact

No impact to the products' functionality anticipated

Responsible PM, Remarks and Date

PM Name: Janis Siklis

Date: 05/04/2022
