WC-GVH2630 Mini Reel Hand Crimping Tool

The WC-GVH2630 is an ergonomically designed, parallel action handtool. This handtool has been designed to crimp the applicable contacts onto a single piece of wire directly from a reel, offering the reliability and performance of our semi-automatic tooling. Mini reels containing 1000 pcs can be purchased separately for our SGVHSF-002()-P0.2 Crimp Contact.

Specifications:

- Lightweight and easy to use
- Ratchet mechanism for crimp conformation
- Ergonomically designed soft handles
- Precision ground dies
- Safe operation
- Easy to change shims are supplied to adjust the crimp height.
