

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and longevity, ensuring a long service life.
- **2-1/2 in Length:** Suitable for applications requiring precise fit and stability.
- **3.5 in Outside Diameter:** Provides a robust and stable housing for shafts.
- **2.99 in Shaft Diameter Compatibility:** Ensures a snug fit for optimal performance.

RS PRO 2-1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 594-773

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 2-1/2 in Plain Bearing is engineered for reliable performance in various industrial applications. Made from high-quality sintered bronze, this bearing is designed to provide excellent durability and reduce friction in rotating or sliding parts. Ideal for use in machinery where consistent and smooth operation is crucial.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	2.99 in

Mechanical Specifications

Length	2-1/2 in
Material	Sintered Bronze
Outside Diameter	3.5 in
