

Pillar

00126812 "Carbon" Laptop Stand, up to 47 cm (18.4"), Carbon Look, black

Highlightstext:

- Practical laptop stand in sophisticated carbon look with pleasant tilt angle for comfortable use of the laptop on tables or at workstations
- Looking good: the laptop holder in appealing carbon look cuts a great figure on the desktop, be it in the office or in the home office
- Non-slip rubber pads for a stable position also protect the resting surface from scratches
- Organise large devices effectively: the laptop stand for the desktop fits large laptops - with a screen diagonal of up to 18.4 inches - perfectly
- The laptop holder is a stylish all-rounder: the sleek design with its adjustable tilt make the laptop stand ideal as a book rest or tablet holder too
- Angled position favours an ergonomic posture and seating position thanks to pleasant raising of the laptop
- Non-slip rubber pads on the underside ensure a secure grip
- Additional rubber pads on the sliding edge prevent scratches and slipping of the laptop
- Stable resting surface prevents overheating of the notebook since ventilation slits are not blocked
- Ideal laptop booster in the home office: can also be used as a practical booster for smartphones and tablets and as a book rest
- Recommended for laptops with a display size of max. 47 cm (18.4"): suitable for 10", 11", 12", 13", 14", 15", 17", 18" and all sizes in between up to 18.4"
