RS PRO 10m Male VGA to Male VGA Cable

RS Stock No.: 665-9563

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

Featuring space-saving, low-profile VGA connectors and during, flexible blue cable, this fully wired VGA cable supports DDC (Display Data Channel) signals as well as high definition VGA / SVGA video signals.

A fully wired (or 'fully populated') VGA cable means that all 15 pins are wired to allow DDC functionality – whereas many 'standard' VGA cables may only have 6 pins wired.
