PRODUCT SPECIFICATION

PRO-FIT CUT LEVEL E FOAM NITRILE COATED GLOVE

Product code: G910
Size: Small, Medium, Large, Extra Large, 2X Extra Large
Colour: Grey/Black

Features

- 15-gauge HPPE steel machine knitted glove for extra comfort and breathability.
- Nitrile micro foam coating on palm to provide superior grip in both wet and dry conditions.

Applications

- This glove offers a high level of cut resistance and is suitable for handling components with sharp edges. It is ideal for changing tools and dies. The foam nitrile grip also offers exceptional grip in wet and oily conditions. This glove is suitable in industries such as aerospace, automotive, construction, engineering, glass handling, machinery and equipment & metal fabrication.

Standards and certification:
