

FEATURES

- **Sintered Bronze Material:** Offers high strength and wear resistance, ensuring long-lasting performance.
- **16 mm Length:** Suitable for compact installations where space is limited.
- **18.04 mm Outside Diameter:** Provides a snug fit for enhanced stability and reduced vibration.
- **11.98 mm Shaft Diameter:** Ensures compatibility with standard shaft sizes for easy installation.

RS PRO 16 mm Sintered Bronze Plain Bearing

RS Stock No: 528-300

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring smooth and efficient rotational movement. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses. Its compact design ensures easy integration into existing systems, providing reliable performance.
