Nuts and Bolts (x3)

Brace Pack 2 (To fit 2150H Frames) Consists of:

ENGLISH

Stormor Mono Shelving

All the benefits of different types of steel shelving have been combined in this truly versatile and interchangeable system. Shelves and storage accessories are a common fitting to all frame styles – so you can adapt your shelving as future needs change without worrying about compatibility. Accessories feature clip-in fitting so that any changes are quickly and easily made. These medium duty shelves offer a weight capacity of 70kg per shelf however back bracing is required to give the system additional rigidity and stability. Shelving BioCote protected. BioCote is a proven, patent protected paint additive which inhibits the growth of micro-organisms - some potentially lethal - on surfaces. This reduces the risk of cross-contamination from surfaces with high contact frequency.

Specifications:

System	Stormor
Number of Shelves	6
Load Capacity	70kg
Height	2150mm
Width	1000mm
Depth	450mm
Colour	Grey
