

# DESCRIPTION

# RANGE

# FEATURES BENEFITS

## DORMER SUPERCUT FLUID

400 grams

5 litres

Excellent cutting performance

Higher viscosity formula  
Excellent adhesion to the tool

Low odour solvent free formula

Can be used on all metals

Mineral oil free

Increased tool life, better surface finishes and closer tolerances

Economical to use

Pleasant to use

Rationalisation onto one grade

Milder to the skin

## DORMER SUPERCUT FLUID

340 grams

CHLORINE FREE

Excellent cutting performance

Higher viscosity formula  
Excellent adhesion to the tool

Low odour solvent free formula

Can be used on all metals

Mineral oil free

Chlorine Sulphur and Phosphorous free formula

Biodegradable ingredients

Increased tool life, better surface finishes and closer tolerances

Economical to use

Pleasant to use

Rationalisation onto one grade

Milder to the skin

More environmentally friendly and less costly to dispose of.  
Advantages for industries where chlorine etc can present problem i.e. nuclear and aerospace. Less risk of corrosion or staining.

## DORMER SUPERCUT AEROSOL

nett 300ml e

CHLORINE FREE

Excellent cutting performance. Increased tool life, better surface finishes and closer tolerances.

Economical to use. Lower viscosity formula. Excellent adhesion for the tool.

Low odour solvent free formula. Pleasant to use.

Can be used on all metals. Rationalisation onto one grade.

Mineral oil free. Milder to the skin.

Chlorine Sulphur and Phosphorous free formula. More environmentally friendly and less costly to dispose of.

Biodegradable ingredients. Advantages for industries where chlorine etc

can present problems i.e. nuclear and aerospace.

Less risk of corrosion or staining.
