Marking of the protective filters: Welding filter compliant with EN166/EN 169 standard

Grade: 11

Optical class: 1

Reinforced solidity: S

Notified Organization 0196

Certification mark: DIN - Manufacturer identification: SO - CE marking

Protection limits: Do not use for handling chemicals or liquids.

Before use, make sure that the different parts of the equipment are not damaged, otherwise, replace the damaged parts.

Safety:

The materials and components constituting the mask do not contain substances at levels such that they are known or suspected to have adverse effects on the hygiene or health of the user under foreseeable conditions of use. Its design does not cause any irritation or discomfort to the wearer.

A risk of allergy is possible in sensitive individuals whose skin comes into contact with the elements constituting this mask.

Cleaning, disinfection and storage:

Clean the leather part using a cloth dampened with neutral soap and a lint-free cloth for the filters. It is advisable to store the products in a cool, dry and ventilated place away from light.

The masks, once folded, are packaged in packs of 5.

A USER MANUAL will be included with the smallest packaging of masks.

Usage time: As soon as you notice the slightest wear of one of the materials, replace the worn part. Expiry date: 5 years from the date of manufacture indicated on the mask.

Assembly :

Unfold the mask, insert the filter suitable for the desired operation into the housing, put it on and make sure that your eyes are well protected.

Do not start welding until this operation is completed.
