

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, ensuring long-lasting performance.
- **1 in Length:** Compact size suitable for a wide range of applications, providing flexibility in design.
- **2.25 in Outside Diameter:** Ensures compatibility with various housing sizes, facilitating easy integration.
- **1.99 in Shaft Diameter:** Designed to fit standard shafts, ensuring a secure and stable fit.
- **Self-Lubricating:** Reduces maintenance requirements and enhances operational efficiency.

RS PRO Sintered Bronze Plain Bearing, 1 in Length

RS Stock No: 528-857

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed to provide reliable and efficient performance in various industrial applications. With its robust construction, it ensures smooth operation and reduces friction between moving parts, enhancing the longevity of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.99 in

Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	2.25 in
