

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **10mm Length:** Suitable for compact installations and precise applications.
- **8.03mm Outside Diameter:** Ensures compatibility with a range of housings.
- **4.99mm Shaft Diameter:** Designed for optimal fit and performance with standard shafts.

RS PRO 10mm Sintered Bronze Plain Bearing

RS Stock No: 528-934

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical systems. Made from high-quality sintered bronze, it offers excellent durability and performance in demanding environments. Ideal for reducing friction and wear in rotating or sliding applications, this bearing ensures reliable operation and extended service life.
