

FEATURES

- **Uniform heat distribution:** Ensures consistent preheating across the PCB, reducing the risk of thermal damage.
- **Adjustable temperature control:** Allows precise temperature settings for different soldering requirements, enhancing versatility.
- **Compact design:** Saves workspace and is easy to integrate into existing setups.
- **Energy-efficient operation:** Minimises power consumption while maintaining performance.

RS PRO PCB Soldering Accessory, Soldering Station Preheater

RS Stock No: 631-074

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO PCB Soldering Accessory is a reliable soldering station preheater designed to enhance the efficiency and precision of your soldering tasks. Ideal for use with PCBs, this accessory ensures optimal heat distribution, reducing the risk of thermal shock and improving solder joint quality.

General Specifications

For Use With	PCB
Product Type	Soldering Accessory
Sub Type	Soldering Station Preheater

Approvals

Standards/Approvals	ANSI-ESD S20.20:2021, CE, REACH, RoHS, UKCA
