

SMD Tweezers

Description

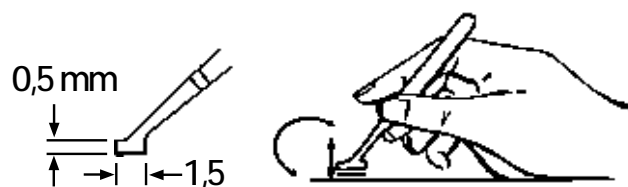

For handling chips or miniature-SMD components. Ideal hand tool, allowing easy manipulation of chips. No operator fatigue, thanks to angled head. For mounting on SMD boards or ceramic substrates. Blunted edges.

Size

115 mm
4 1/2"

Model

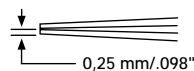

102A CA
[245-0356](#)

Tipshape like 102A CA, but with reverse action, very sensitive.

115 mm
4 1/2"

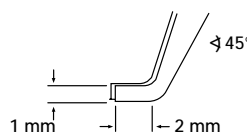

102A CA-X

Similar to 102A CA, with bent tips.

115 mm
4 1/2"

103A CA
[420-5849](#)

Miniature axial lead component handling tweezers for transverse placing with SMD and mixed circuits.
