

## TECHNICAL DATA SHEET

ENGLISH

**RS 153-1979**

### **Invertible Flammable Airduster**

ERFD200 has been designed for the removal of dust and airborne contamination from very delicate or inaccessible areas of electrical and electronic equipment. ERFD200 is an invertible product, which is particularly useful for very intricate equipment or items which cannot be moved for cleaning or maintenance.

- Environmentally friendly propellant
- Inert, pure compressed gas for dust removal
- Ideal for removing particulates from inaccessible areas on delicate equipment

#### **Typical Properties**

Colour	Colourless
Flash Point (°C)	<-60
Boiling Point (°C)	-40
Vapour Density (@15°C, air=1)	1.5

#### **Packaging**

200ml Aerosol

#### **Order Code**

ERFD200

#### **Directions for Use**

ERFD200 can be used in any direction and should be sprayed in short sharp blasts. Do not spray directly onto live equipment; flammable propellant.

**Caution:** Do not use ERFD200 for prolonged blasts as the surface of the can will form frost.
