RS Pro Black Terminal Post, 10A, 2BA Thread

Product Details

Insulated Piercing Terminal

This terminal has a 4mm socket in a captive head and a clamp-gap with pyramid shaped teeth to pierce wire insulation. This negates the need to strip wire. The clamp-gap accepts cable up to a maximum of 4mm diameter. The terminal is complete with panel fixings that comprise: two black resin mouldings, metal washer, solder tag and two lock nuts. Contact material Nickel plated brass. The panel fitting is sealed with two integral sealing rings. Height above panel 27mm. Diameter 17.5mm.

Specifications:

Colour	Black
Current Rating	10A
Thread Size	2BA
Insulated	Yes
Body Material	Phenolic Resin
Height Above Panel	27mm
