

## SHOWA AC800

The new AC800 is an 18-gauge seamless knit glove made using HPPE blended with static dissipative yarn and featuring an embossed microporous foam nitrile palm dip. The unique features of these elements allow for this product to be touchscreen friendly, silicone free, fingerprint free and contains no natural rubber latex.

Certified under the standard **EN 16350**, the AC800 by SHOWA meets the requirements for electrostatic properties (ESD). This certification ensures the glove's safe usage in ATEX zones (working area with risk of explosion and/or high flammability).
