13cm x 5m Oil Only Boom

Oil Only absorbents are generally white in colour. They are designed for selective recovery of oils and oil based fluids whilst repelling water, this can include fuels, lubricants (mineral and vegetable) and other hydrocarbon based fluids. Can be used on land or water to contain the spread of Oil and other immiscible liquids. Can be placed around at-risk drain outlets to contain spills at source. For medium to long term deployment will not sink even when fully saturated. Designed to be deployed on water and can be joined together to form a continuous containment.
