RS PRO Illuminated Magnifier, 2x, 4.5x, 9x Magnification, 90mm Diameter

RS Stock No.: 180-9469

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This compact illuminated magnifying glass from RS PRO produces clear three-way magnification. It's a versatile option for viewing small details without straining your eyes or needing additional light.

With three different magnification strengths and three switchable LED lights, this hand-held magnifier makes it easy to fully illuminate your viewing area and select the magnifying strength necessary for your application. The main lens has a diameter of 3.5 in (90 mm) with a magnification of 2x, while the 3/4 in (20 mm) lens set into the main lens has a magnification of 4.5x. There's also a 3/4 in (20 mm) lens set into the handle that magnifies up to 9x. The magnifier's ergonomic handle and lightweight plastic construction make it easy to hold for long periods of time.

This magnifying glass is suitable for both household and professional situations. It's useful for seeing fine print and small details on maps, coins and watch mechanisms.
