Choice of the following bay sizes:

2100H x 1000W x 400D – UDSWL per level 160Kg
2100H x 1000W x 500D – UDSWL per level 135Kg

Maximum bay load is 1200Kg for both bay sizes

RS Euro Shelving is a heavy duty, fully adjustable modular steel shelving system. Shelves are located on clips which slot into the upright making the structure rigid. Assembly and shelf adjustment is simple and easy.

With this versatile system you can choose from cladded/closed or open bays and there is a wide range of accessories available. Open and closed frames and backs can be mixed if required.

Bays are modular, (can share a common frame), and can be fitted together as starter and extension bays.

Frame uprights are finished in **Dark Grey**

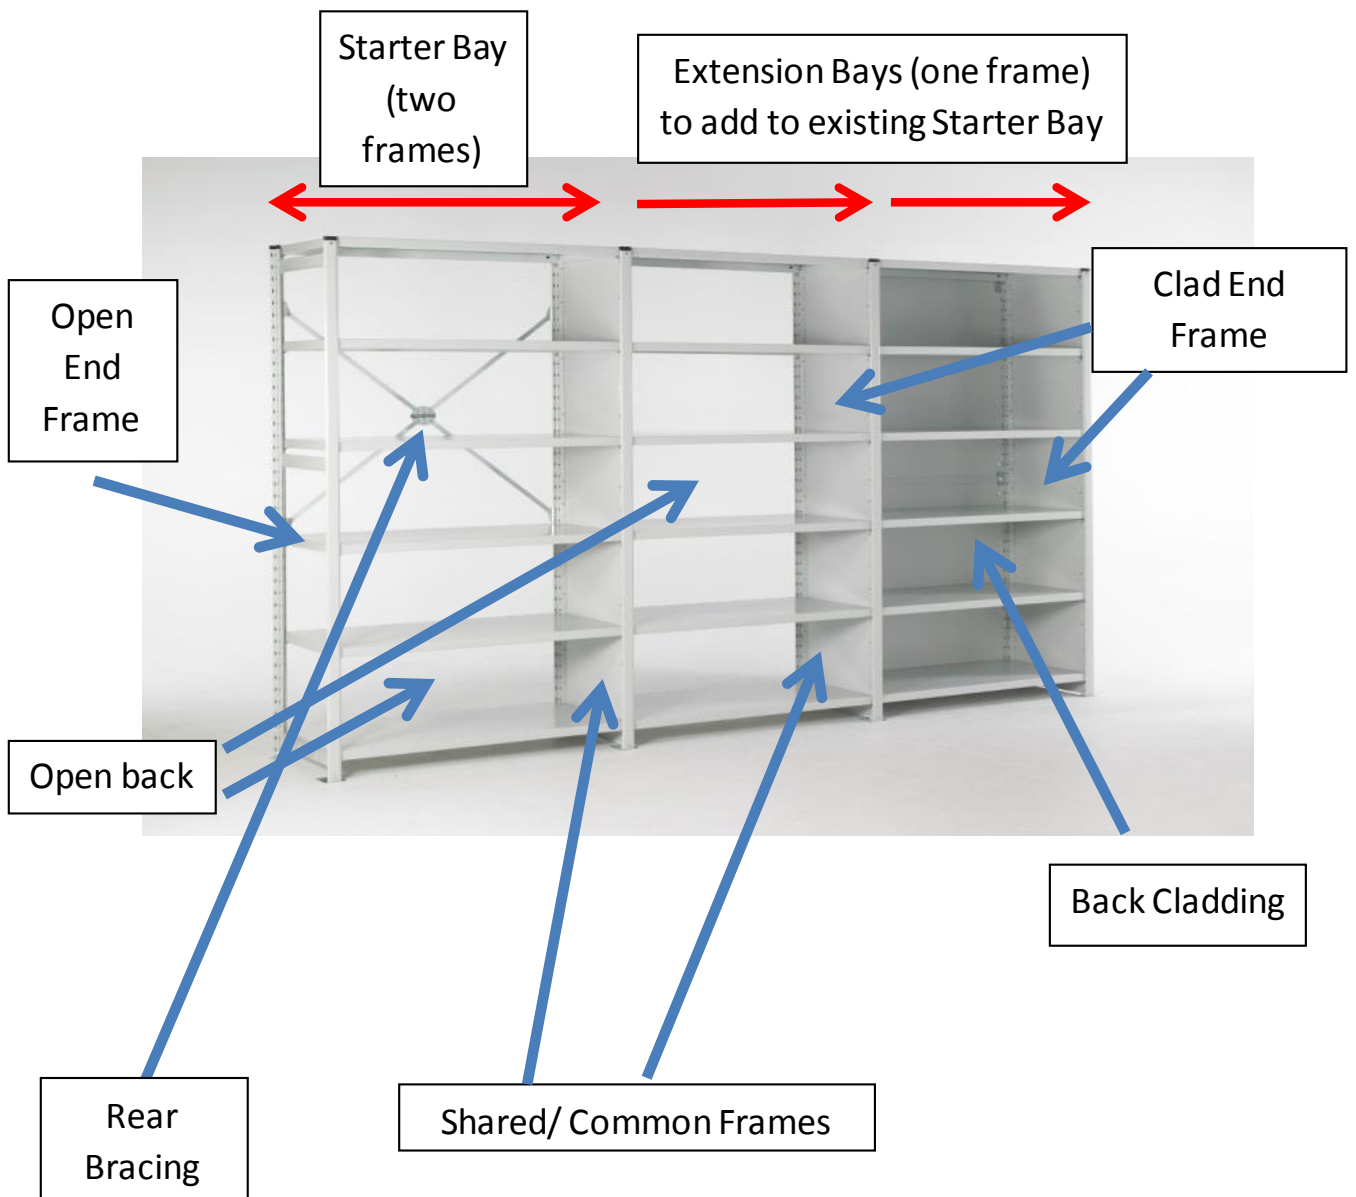

Shelves, frame cladding and rear cladding finished in **Light Grey**

Rear bracings and footplates have a Galvatite finish
