- Length of 2.5 m
- Width of 60 mm
- Endless end fittings
- Conforms to the European safety standard EN 1492-1 for textile slings

## RS PRO 2.5m Green Lifting Sling Round, 2t

RS Stock No.: 729-2997

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

Lifting slings like this one from the RS PRO range are used together with a crane or hoist for manoeuvring heavy goods in areas such as warehouses and building sites. Textile slings are less likely to damage their cargo than chain slings, as well as being much lighter. These 2.5-metre-long round lifting slings offer excellent wear resistance and shock-absorbing capabilities. Made from a high-strength, flexible polyester, they retain their robustness in water and are resistant to oil, grease and most acids.

## General Specifications
