

# e-8405 Metal Marker:

For permanently writing on and marking almost all surfaces. The 8405 Metal Marker enables metal to be written on while minimising the risk of corrosion (tested in the aerospace industry by British Aerospace Airbus Ltd as per ABP 9-3323 standard Class A). It is also resistant to many solvents and paints.

**Characteristics:** Permanent, waterproof, smudge-proof, extremely lightfast, solvent-resistant and low-corrosion ink.

**Tip:** Fine-writing plastic round tip

**Assortment Options:** Box of 5 per colour / Eurohookstrip / Counter Display

**Stroke Width:** 0.75 mm

**Colours:** Black (001)
