

**Cable tag, ladder-style, thermal transfer print, 60.0x11.6mm, white, box=1000pcs.**

Art.-No. 556-80515 | TAGPU12X60-4-PUR-WH | 

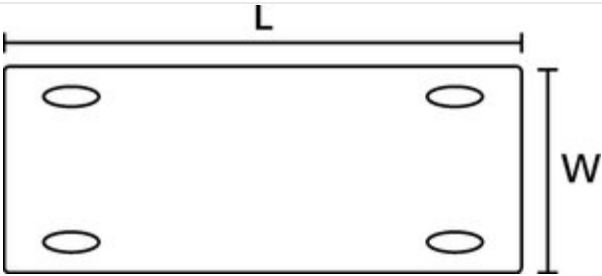

- UV-stabilised
- For larger cables and wires, bundles
- Robust and flexible material
- Thermal transfer or laser beam printable
- Available in various colours
- Halogen Free
- 
-

| Application               | <p>TAGPU is a specially designed cable marker for identifying larger wire and cable bundles, where a permanently legible and UV resistant marking is required. The cable markers consist of a robust and flexible polyurethane material and are especially suited for harsh environments. They are supplied pre-cut and have been formatted into a convenient "ladder" system. The markers are applied to cable and harness assemblies with cable ties, and are also suitable for retrofit purposes. The material has been conditioned for printing on both thermal transfer and laser beam printers. Simply print and press out the required TAGPU and apply with cable ties.</p> <p>Print with HellermannTyton's premium range of thermal printers and ribbons or a laser beam marking device.</p> |
