

NEW

# NiTO Safety coupling

NiTO safety couplings are unique quality products specially designed and tested for professional use in connection with hot water and high water pressure.

The safety feature consists of a safety coupling that will automatically lock the safety nipple, even at normal water pressure and cannot be released again until the pressure is removed.

- Safety couplers are recommended when the water temperature is over 40°C
- Extra long hose tail for mounting of 2 hose clamps or crimping of ferrule
- The same high quality as for the Original NiTO couplings
- 5 year function guarantee

NEW

# NEW PRODUCT from NiTO

## Safety coupling for connecting 2 hoses

NiTO adds another 2 products to the NiTO Safety coupling range.

- NiTO Safety nipple with 1/2" hose tail
- NiTO Safety nipple with 3/4" hose tail

Now it is possible to connect 2 hoses in a very simple way, and to achieve the unique safety of this product. It is impossible to release the quick couplings under pressure, and in this way you avoid burns and water damages due to temperature and water pressure.

	Description	Art.No.	Dimension
<b>Couplings</b>			
	Safety coupling with hose tail	6151SA8	1/2"
	Safety coupling with hose tail	6150SA8	3/4"
<b>Coupling nipples</b>			
	Safety nipple with male BSP for NiTO Heavy Duty	61640A8	1/2"
	Safety nipple with male BSP for NiTO II Industry	61650A3	3/4"
<b>Safety nipples</b>			
	Safety nipple with hose tail	61660A3	1/2"
	Safety nipple with hose tail	61670A3	3/4"
<b>Sets</b>			
	Safety coupling set for NiTO II Industry Spray Gun	61515G3	3/4", 3/4"
	Safety coupling set for NiTO Heavy Duty	615S4G3	1/2", 3/4"
	Safety coupling set for NiTO Heavy Duty	61514G3	1/2", 1/2"

#### Where to use NiTO Safety couplings:

- NiTO Heavy Duty Industry Spray Gun with 1/2" female BSP
- NiTO II Industry Spray Gun with 3/4" female BSP
- Coupling between 2 hoses – dimension 1/2" and 3/4"
- All situations where safety is important

#### Technical specifications:

Max. 25 bar • Max 100°C  
 Material: Chromium-plated brass MS58, NBR.  
 OBS: NiTO Safety couplings and Safety nipples are not compatible with Original NiTO.
