

## FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring longevity.
- **35mm Length:** Suitable for compact installations where space is limited.
- **40.06mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **29.98mm Shaft Diameter:** Designed to fit standard shaft sizes, facilitating easy integration.

## RS PRO 35mm Sintered Bronze Plain Bearing, 40.06mm OD

RS Stock No: 518-202

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in various industrial settings. The bearing's primary benefit is its ability to support shafts with minimal friction, ensuring smooth operation and extended service life.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	29.98 mm

## Mechanical Specifications

Length	35 mm
Material	Sintered Bronze
Outside Diameter	40.06 mm
