Rinse mouth, drink 1-2 glasses of water, do not induce vomiting, consult a doctor.

5. Fire fighting measures

Combustion behaviour:

Solvent containing flammable product. In case of fire toxic gases are released.

Suitable extinguishing media:

foam, extinguishing powder, carbon dioxide.

Special protection equipment for firefighters:

Wear self-contained breathing apparatus.

Special hazards by the product itself:

Vapours may accumulate in low or confined areas, travel considerable distance to source of ignition, and flash back.

Hazardous combustion products:

Oxides of carbon, oxides of nitrogen, irritating organic vapors.

Additional information:

In case of fire, keep containers cool with water spray.

6. Accidental release measures

Personal precautions:

Remove sources of ignition.
Ensure adequate ventilation.

Environmental precautions:

Do not let product enter drains.

Clean-up methods:

Wipe up using absorbent material
Store in a partly filled, closed container until disposal.

7. Handling and storage

Handling:

Keep away from sources of ignition - no smoking.
Vapours should be extracted to avoid inhalation.
Use only in well-ventilated areas.

Storage:

Store in a cool, dry place.
Do not store near sources of heat or ignition, or reactive materials.

Respiratory protection:

Do not inhale vapors and fumes.

Use only in well-ventilated areas.

Hand protection:

The use of chemical resistant gloves such as Nitrile are recommended.

Please note that in practice the working life of chemical resistant gloves may be considerably reduced as a result of many influencing factors (e.g. temperature). Suitable risk assessment should be carried out by the end user. If signs of wear and tear are noticed then the gloves should be replaced.

Eye protection:

Wear protective glasses.

Skin protection:

suitable protective clothing
