

Datasheet

RS PRO 3KW industrial fan heater

Stock number: **174-6569**
174-6570

EN

Product specifications:

Industrial fan heater

Heating element with stainless steel

Power supply: 220-240v ~50hz

Power output : 30/1500/3000w

Heating area : 30m²

Air output : 386 m³/h

Adjustable capillary thermostat control

Overheat protection

With time delay

Full metal casing

Insulated handle more safe for using

Waterproof class:ipx4

With capillary thermostat control the temperature of the environment

Feature:

Integrated room thermostat for constant , cosy warmth

Overheat protection

Fan moto with thermal protection

Condensation free heating, no oxygen consumption

Easy transportable and easy to use

Possible field of applicaton :

Automobile workshop

Construction area

Assembly opeation

Gastronomy

Storeroom and workshop

Greenhouse
