

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, extending the lifespan of the bearing
- **30 mm Length:** Ensures compatibility with a wide range of applications, offering flexibility in design
- **28.05 mm Outer Diameter:** Allows for easy integration into existing systems, enhancing versatility
- **21.98 mm Shaft Diameter Compatibility:** Ensures a precise fit, reducing vibration and noise

RS PRO 30 mm Sintered Bronze Plain Bearing, 28.05 mm Outer Diameter

RS Stock No: 528-880

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient performance. Made from sintered bronze, it offers excellent durability and low friction, making it ideal for reducing wear in mechanical systems. The bearing is suitable for shafts with a diameter of 21.98 mm, ensuring a precise fit and smooth operation.
