PCB terminal block, 2636 Series, 90 °conductor entry to board

This PCB terminal block (item number 2636-3107/020-000) is designed to connect conductors quickly and easily. It offers the flexibility needed for different mounting types. Strip lengths must be between 18 and 20 mm when connecting conductors to this PCB terminal block. This product features one conductor terminal and utilizes Push-in CAGE CLAMP®. Push-in CAGE CLAMP® connection technology is ideal for connecting all conductor types. It allows direct insertion of both solid and fine-stranded conductors with ferrules without the need for tools—all thanks to its pluggable design. The dimensions are (71.6 x 35.3 x 24.8) mm (width x height x depth). Depending on the conductor type, this PCB terminal block is suitable for conductor cross sections ranging from 0.75 mm² to 16 mm².

Tin is used for coating the contact surfaces. This PCB terminal block is operated with an operating tool. THT is used to assemble the PCB terminal block. Insert the conductor into the board at an angle of 90°..
