

## **MOUNTING SOLUTIONS FOR MCP7800 SERIES PRINTERS**

### *Product Summary*

Two M3 threaded inserts in the printer housing allow various OEM mounting arrangements in addition to a range of mounting options available from Martel Instruments. These facilitate hands free operation and ease of use for the MCP7800 Series Printers

#### **Wall Mounting Kit**

The innovative design of the wall bracket allows the printer to be mounted in either the upright or inverted positions. Supplied complete with mounting screws, wall screws and wall plugs.

**Product ref. MFP97**

#### **Protective Boot with Magnetic Inserts**

Strong magnetic inserts will hold this protective boot securely on metallic surfaces whilst print and tear functions take place.

**Product ref. MPB500**

#### **Belt Clip**

A sturdy plated steel belt clip can be assembled to the printer allowing fitting to the users belt in either the upright or inverted position.

**Product ref. MFP96**

#### **Carry Case**

A simulated leather carry case allows the printer to be carried on the user's shoulder or belt and provides protection from the weather, dust etc whilst permitting cable connection and paper access via Velcro secured flaps.

**Product ref. MPH501**
