

Description

The 8MT-25 Mixing Tips are single use static mixer for 2-part low to medium viscosity cartridge systems. The mixer works using stationary elements inside a narrow cylindrical tube. This forces the materials to combine as it travels through the length of the mixer and provides a homogenous mix of hardener and resin that can be applied directly onto the targeted area.

Compatible Products

Part #	Pkg.
832HD-25ML	Dual Syringe
832HD-50ML	Dual Cartridge
832HDA-25ML	Dual Syringe
832HDA-50ML	Dual Cartridge
8329TFF-50ML	Dual Cartridge
8329TFS-50ML	Dual Cartridge
8332-25ML	Dual Syringe
8332-50ML	Dual Cartridge
9200-50ML	Dual Cartridge
9201-25ML	Dual Syringe
9201-50ML	Dual Cartridge

Features & Benefits

- Simply attach the tip to a compatible dual syringe or dual cartridge end and twist to lock
- Narrow cylindrical tubes with a stationary mixing elements
- For 2-part low to medium viscosity cartridge systems
- The helical internal geometry provides a homogeneous and perfect mix of hardener and resin
- Eases precision application
- Single use

Specifications

Part #	# Of Elements	Element Width	Outlet Inner Diameter	Total Length
8MT-25	16	5.4 mm	1.2 mm	111.8 mm
