

Keystone Speaker Connector

Keystone speaker connectors provide easy solutions for distributing audio signals within offices and work areas. These gold binding post connectors are designed to allow quick screw on, or plug in cable terminations. The keystone adaptors provide an easy snap-in mounting into a keystone patch panel

Features

- Universal keystone designed to fit into faceplate adaptors and panels
- Screw style or plug in installation for fast efficient terminations
- Suitable for a wide range of audio and video applications
- Black or red elastic identifier on the front with screw termination to the rear
- Central cylindrical cavity suitable for use with banana style connectors

Also available as part of our popular ranges of D UNIVERSAL, Panel Mount and Euro Angled connectors
