

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long service life
- **1-1/8 in Length:** Suitable for accommodating specific shaft lengths, enhancing compatibility
- **0.5 in Outside Diameter:** Fits standard housings, simplifying installation
- **0.37 in Shaft Diameter:** Designed for precise fit on shafts, reducing vibration and noise

RS PRO 1-1/8 in Sintered Bronze Plain Bearing

RS Stock No: 528-087

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Constructed from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.37 in

Mechanical Specifications

Length	1-1/8 in
Material	Sintered Bronze
Outside Diameter	0.5 in
