

## FEATURES

- **Sintered Bronze Material:** Provides excellent durability and resistance to wear, ensuring long-lasting performance.
- **5/8 in Length:** Suitable for a variety of applications, offering flexibility in design and installation.
- **0.5 in Outside Diameter:** Ensures compatibility with standard housings, facilitating easy integration.
- **0.37 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing versatility and ease of use.
- **Self-Lubricating:** Reduces maintenance requirements and downtime, improving operational efficiency.

## RS PRO Sintered Bronze Plain Bearing, 5/8 in Length

RS Stock No: 528-082

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient motion control. Ideal for use in machinery and equipment, it offers excellent performance in reducing friction and wear, ensuring smooth operation and extended service life.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.37 in

## Mechanical Specifications

Length	5/8 in
Material	Sintered Bronze
Outside Diameter	0.5 in
