Micro Switches

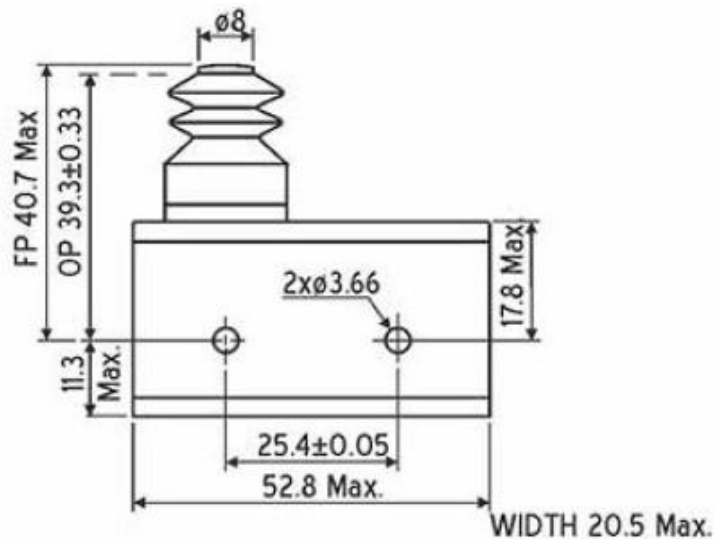

RS Stock number 797-2505

Specifications:

Actuating Force:	720gms (max.)
Release Force:	170gms (max.)
Pretravel:	1.40mm (max.)
Overtravel:	4.6mm
Movement Differential:	0.08mm (max.)
Salient Features:	Heavy duty spring plunger actuator protected by a synthetic rubber cowl

Dimensions-mm:

Characteristics:

- Single pole changeover, snap-acting switches.
- Fine silver contacts.
- Beryllium copper trident spring operating mechanism.
- M3 Screw terminal screws.
- 3.96mm. Wide wiring channels protected by a removable, insulated cover plate.
- Conform to IEC 1058-1 Standard.
