

Hi-Speed USB 2.0 DVD Creator

Part # F5U228

This great innovation from Belkin lets you capture and edit movies from a variety of analog video sources. The package includes the powerful Ulead movie-editing and DVD-authoring software that lets you add professional-quality soundtracks and titles, as well as stunning effects. When your work is completed, you can easily share your movies through e-mail, the Web, or as high-quality VCDs or DVDs. You can play back your movies on your home DVD player, or on a computer running DVD playback software.

Advantages :

- Lets you capture video from camcorders, PC cameras, VCRs, or other analog video sources
- Lets you share your video creations on tape, DVD, VCD, via e-mail, or the Web
- Creates DVDs to play on your home or on your PC DVD system
- Supports CD- and DVD-burner hardware
- Complies with Hi-Speed USB specifications
